This Product Disclosure Statement ('PDS') is a summary of significant information about the Altius Bond Fund (ARSN 150 873 395) ('Fund') and contains a number of references to important information, each of which forms part of the PDS.

This reference material is contained in the Additional Information Document available on our website [australianunity.com.au/wealth/abf](http://australianunity.com.au/wealth/abf). You should consider the information in the Additional Information Document before making the decision about whether to invest in the Fund. A reference to 'this PDS' or 'the PDS' includes, unless the context otherwise requires, a reference to both the PDS and to the Additional Information Document.

The information provided in this PDS is general information only and does not take into account your investment objectives, financial situation or particular needs. Before making any decision about this product, you should consider the information in this PDS and the reference materials, and obtain financial advice tailored to your personal circumstances.

An investment in the Fund, including through the units offered under this PDS, is not guaranteed or otherwise supported by AUFM or any other member of the Australian Unity Group. You should consider this when assessing the suitability of the investment and particular aspects of risk.

In this document, the description 'we', 'us' or 'our' refers to AUFM.

Certain information in this PDS is subject to change. Information that is not that is not materially adverse can be updated by us. Visit our website for updated and further information on the Fund, including updated disclosure information, unit prices and performance. We recommend that you obtain and review such information before you invest. Alternatively, you can call us and we will send you the requested information free of charge.

The PDS has been prepared to comply with the requirements of the laws of Australia. No units are being offered to any person whose registered address is outside of Australia unless AUFM is satisfied that it would be lawful to make such an offer. The distribution of the PDS in jurisdictions outside of Australia may be restricted by law and persons who come into possession of the PDS should seek their own advice on and observe any such restrictions. Any failure to comply with such restrictions may constitute a violation of applicable securities laws. The PDS does not constitute an offer or invitation in any place in which, or to any person to whom, it would not be lawful to make such an offer or invitation.

The PDS may only be used by investors receiving it (electronically or otherwise) in Australia. No investments will be accepted on the basis of the PDS once replaced with a later PDS.

In this PDS, 'business day' refers to a Melbourne business day on which Australian banks are open for business in Melbourne excluding Saturday and Sunday.

The PDS is available in electronic format, including access via our website. If you receive the PDS electronically, please ensure that you have received the PDS in its entirety. If you are unsure whether the electronic documents you have received are complete, please contact us. Printed copies are available free of charge.

## 1. About us

### Who we are

AUFM is the Responsible Entity for the Fund. It is subject to the provisions of the Constitution of the Fund and the Corporations Act 2001. AUFM is responsible for the administration and management of the Fund and sets the investment policy and objectives.

AUFM is a subsidiary of Australian Unity Limited (ABN 23 087 648 888) and is part of the Australian Unity Group of companies which undertake investment activities.

At Australian Unity, we focus on improving the financial wellbeing of our investors. Following this basic principle, we have created a number of successful funds with a focus on the core areas of cash, fixed interest, property and Australian equities. These funds are managed either directly by Australian Unity or by one of our joint venture partners.

We take a diversified approach to cash and fixed interest funds management, combining both credit and duration strategies, and seek to optimise returns for investors throughout all market conditions.

Our depth and breadth of experience in cash and fixed interest markets enables us to remain flexible and adopt a high conviction investment style.

## 2. How the Fund works

Investor applications into the Fund are pooled to purchase a portfolio of fixed interest securities, derivatives and cash, including Government, corporate, bank and other bonds, debentures, notes and other debt related securities.

So that you know what your investment in the Fund is worth, the total value of the assets is divided into units. We will quote you a price for each unit each business day and will keep a record of the number of units you hold.

The application and withdrawal price of your units is subject to the applicable buy/sell spread.

The price of units will change as the market value of assets in the Fund rises or falls. We will be able to provide you with information about the current unit price to help you decide whether to sell your units or buy more. You can increase your investment at any time while the Fund is open for applications by buying more units in the Fund. Generally, you can decrease your investment by redeeming some or all of your units, although in certain circumstances (such as a freeze on withdrawals) you may not be able to withdraw your investment within the usual period. Withdrawals can be made by using the Withdrawal Request Form on our website or by contacting us. Withdrawals can generally be made on any business day.

You should read important information about unit prices before making a decision. Go to the information about 'Unit prices' in Section 2 of the Additional Information Document. The material relating to unit prices may change between the date when you read this PDS and the day when you acquire the product.

Minimum investment and withdrawal amounts apply

### Minimum investment requirements\*

Initial investment amount	\$5,000
Additional investment amount	\$1,000 (or \$100 per month for regular savings plan)
Minimum withdrawal amount	\$1,000
Minimum balance	\$5,000

\*If you are investing in the Fund through a Masterfund or Investor Directed Portfolio Service ('IDPS'), the minimums detailed above may not apply. You should refer to your Masterfund or IDPS operator's offer document. See 'If you invest through a Masterfund or IDPS' in Section 5 of the Additional Information Document for more information.

We will send you a statement confirming any transactions made by you at the time of the transaction (excluding those made using a regular savings plan).

### Small account balances

If the current value of your account is below the minimum balance required, we may withdraw your units in full and pay you the proceeds. The amount payable will be the withdrawal price on the date of the withdrawal multiplied by the number of units you hold.

You should read important information about making investments and withdrawals and investing through a Masterfund or IDPS before making a decision. Go to the information about 'Making investments and withdrawals' in Section 1 and 'If you invest through a Masterfund or IDPS' in Section 5 of the Additional Information Document. The material relating to making investments and withdrawals and investing through a Masterfund or IDPS may change between the date when you read this PDS and the day when you acquire the product.

### Distributions

Generally, distributions of net income are paid to you after the end of each calendar quarter (i.e. March, June, September and December).

Any net realised gains earned by the Fund are generally distributed at the end of the financial year. It is our standard practice to source distributions from net income and net realised gains only. The distribution policy will be aligned to the ongoing earning capacity of the Fund.

Although it is not our intention to source future distribution payments from sources other than net income and net realised capital gains, we may do so if we consider it to be in the interests of our investors and where payment from that source is expected to be sustainable given the circumstances.

The amount of distribution income paid to you is based on the number of units you hold at the end of each distribution period.

You can reinvest your distribution. The distribution reinvestment price is the cum-distribution unit price at the end of the distribution period less the amount of distribution per unit payable, excluding any buy/sell spread. If you wish to reinvest your distributions, you should complete the relevant section of the Application Form.

Distributions are generally paid within 21 business days of the end of each calendar quarter.

### 3. Benefits of investing in the Fund

The significant features and benefits of the Fund are:

- Contemporary investment process.
- Access to an active fixed interest manager.
- A diversified portfolio of Government and credit securities, with the potential to generate regular income paid quarterly.
- Access to the skills of a team of seasoned investment professionals who actively manage the portfolio throughout economic cycles.
- Prudent risk management.
- Expected low capital volatility.

You should read important information about the constitution before making a decision. Go to the information about the 'Constitution' and 'Additional disclosure information' in Section 5 of the Additional Information Document. The material relating to the constitution may change between the date when you read this PDS and the day when you acquire the product.

### 4. Risks of managed investment schemes

#### What is risk?

'Risk' generally refers to the variability or volatility of an investment return and the likelihood of incurring a loss on your investment. You should consider the likely investment return, the risk associated with the Fund and your investment timeframe when choosing to invest in the Fund.

All investments come with a degree of risk and different strategies carry different levels of risk, depending on the assets that make up the strategy. You will need to determine how much risk you are able, or willing, to tolerate as the level of risk for each person will vary depending upon a range of factors, including age, investment time frames, your overall investment portfolio, and your individual risk tolerance.

The main risks of investing include that the value of your investment will vary, the amount of income generated from the investment may fluctuate or decrease, or you may receive a lower than expected rate of return. Returns of the Fund are not guaranteed. The level of returns will vary, and there is a risk that investors may lose some of their money. Future returns may differ from past returns.

These risks can arise from various circumstances, including:

- changes to government policies and legislation that may have adverse impacts on registered managed investment schemes such as this Fund, investment markets or the tax treatment of investment returns ('regulatory risk'); for further information see 'Australian Tax Reform' in Section 4 of the Additional Information Document; and
- changes to social, economic (e.g. inflation and interest rates), political, commercial and technological environments, or to market sentiment, that may make certain investments less attractive ('market risk').

In general, there is a relationship between the level of return generated by an investment and its level of risk. Assets with the highest potential long-term returns often also carry the highest level of risk.

The spectrum below shows the five main types of investments according to their relationship between risk and return for you to consider.

If the security of your money is your highest concern when selecting investments, you should choose an investment with lower risk, bearing in mind that your return may be lower over the long term. Conversely, if your focus is on achieving higher returns, you will need to be comfortable with the fluctuations in the value of your investment before selecting an investment with higher risk.

### How we manage risk

We are unable to eliminate all investment risks, but we do analyse, manage and aim to reduce the impact of risks through the use of carefully considered investment guidelines.

### How you can manage your risk

In managing your risk, we recommend that you:

- seek your own professional advice to help you understand how your current financial situation and your investment objectives affect your selection of investments;
- consider your investment timeframe, your investment objectives and your risk tolerance; and
- diversify your investments to help reduce risk and the volatility of investment returns.

Particular significant risks relevant to the Fund

### Derivatives risk

We may use derivatives to implement portfolio positions in the Fund, as well as manage currency, interest rate and credit risks. We will not use derivatives for gearing or speculative purposes.

A derivative is a financial instrument which derives its value from another source, such as a share. The main types of derivatives are options, futures, and swaps.

Derivatives can expose a fund to risks such as market risk (the risk that the value of the derivative will fluctuate due to movement in the price of the underlying security, index or financial obligation), basis risk (the risk where the value of the derivative moves independently from the value of the underlying security, index or financial obligation) and counterparty risk (the risk of loss arising from the failure of another party to meet contractual obligations).

### Liquidity risk

Liquidity relates to how quickly you can access your money from an investment. Investments in direct property, for example, are generally less liquid than cash, due to the time it takes to sell property. Similarly, securities of smaller issuers may be less liquid than larger issuers such as Governments. This is a risk in all market conditions, however, especially in falling markets.

The Fund holds a certain amount of cash and other liquid assets to enable you to access your money in a relatively short amount of time. However, if the level of withdrawals exceeds the available liquid assets, it may take longer for you to access your money or the Fund may lose value from selling assets at an inopportune time.

### Fixed interest risk

Fixed interest funds effectively lend money to Governments, companies, banks and other entities at either fixed or variable rates of interest, for a defined term. This is achieved by purchasing bonds, debentures or similar securities that have been issued by a borrower (issuer).

There is a risk that an issuer of a fixed interest security may not be able to make interest payments or to repay the principal, which may reduce the value of your investment and level of income. Changes in interest rates or changes to the credit-worthiness of issuers will also impact the value of your fixed interest investments.

As fixed interest securities are not generally traded on an exchange (like equities), in adverse market conditions these securities may become less liquid than under normal circumstances. This may impact on the performance of the Fund, and it may take longer for you to withdraw your money.

### Foreign currency risk

Some of the underlying investments may be in currencies other than the Australian dollar and can therefore be subject to foreign currency risk. To limit this risk, any foreign currency exposure is hedged into Australian dollars.

### Unforeseen risk

Major external events including natural phenomena, pandemics, attacks or other like events may affect the Fund's investments or the underlying funds in which the Fund invests. These occurrences may result in a loss of capital, in turn reducing the price of Units and amounts that may be available for distribution by the Fund.

## 5. How we invest your money

### Investment return objective

The Fund aims to outperform the benchmark (50% Reserve Bank of Australia Cash Rate and 50% Bloomberg AusBond Composite 0+Yr Index<sup>1</sup>) after fees over rolling three year periods.

AUFM may vary the Fund's investment objective from time to time. AUFM will advise investors in writing of a change to the investment objective of the Fund.

<sup>1</sup> Bloomberg Finance L.P. and its affiliates (collectively, "Bloomberg") do not approve or endorse this material and disclaim all liability for any loss or damage of any kind arising out of the use of all or any part of this material.

### Investment approach

The Fund is an 'active and diversified' fixed income fund which aims to optimise returns for investors in all market conditions.

Our investment strategy is to apply a high conviction approach and to seek opportunities which take advantage of the mispricing of bonds at all stages of the economic cycle. A comprehensive risk management framework is employed, which includes diversification at the security and sector level.

The Fund has broad investment guidelines permitting investments in fixed interest securities of 0-100% and cash and similar investments of 0-100%. Furthermore, these investments may be with government or corporate entities in a range of 0-100%. These broad ranges assist in our aim to position the Fund to achieve positive performance returns in a rising interest rate and/or a deteriorating credit environment.

The Fund has the ability to borrow funds for day-to-day operational activities, however will generally not use gearing in implementing portfolio positions.

The Fund may gain exposure to certain assets by investing through other investment vehicles including those managed by a related entity.

Due to the nature of its investment strategy, we consider the level of investment risk in the Fund to be low-to-medium.

### Who should invest in the Fund?

This Fund is typically suited to investors who:

- require an exposure to fixed income investments that offer relatively stable returns and regular income;
- want a relatively high level of capital preservation; and
- have at least a three-year investment timeframe for holding their investment.

You should consider the likely investment return, risk and your investment time frame when choosing to invest in the Fund. It is important that you consider the risks of investing which are explained in section 4 of this PDS.

### Labour standards or environmental, social or ethical considerations

We assess and take into account labour standards and environmental, social and ethical considerations when undertaking qualitative company analysis of prospective investments for the portfolio. These considerations are outlined in the Cash and Fixed Interest Responsible Investment Policy, which is available (free of charge) by contacting us at [australianunitywealth@unitregistry.com.au](mailto:australianunitywealth@unitregistry.com.au) or calling 1300 997 774.

### Switching to another Australian Unity fund

The Fund has only a single investment option and switching is not available. As we currently have no intention to add further investment options to this Fund, if you find your investment no longer suits your needs you should consider withdrawing and applying for another investment that better suits your investment requirements.

For the latest range of funds offered by Australian Unity, please refer to our website [australianunity.com.au/wealth](http://australianunity.com.au/wealth).

## 6. Fees and costs

### DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns. For example, total annual fees and costs of 2% of your account balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs. You may be able to negotiate to pay lower contribution fees and management costs where applicable. Ask the fund or your financial adviser.

### TO FIND OUT MORE

If you would like to find out more or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC)** website ([www.moneysmart.gov.au](http://www.moneysmart.gov.au)) has a managed funds fee calculator to help you check out different fee options.

This document shows fees and other costs that you may be charged. These fees and costs may be deducted from your account, from the returns on your investment or from the Fund assets as a whole. You should read all the information about fees and costs because it is important to understand their impact on your investment.

The information can be used to compare costs between different managed investment schemes.

TYPE OF FEE OR COST	AMOUNT
Fees when your money moves in or out of the fund	
Establishment fee	Nil
Contribution fee	Nil
Withdrawal fee	Nil
Termination fee	Nil
Management costs <sup>1</sup>	Management costs comprising:
The fees and costs for managing your investment	<ul style="list-style-type: none"> <li>A management fee of 0.46% p.a. of the net asset value of the Fund.<sup>2,3</sup></li> <li>Recoverable expenses estimated to be 0.12% of the net asset value of the Fund for the financial year ending 30 June 2020.<sup>3</sup></li> <li>Estimated indirect costs of 0.00% of the net asset value of the Fund.<sup>4</sup></li> </ul>

- Management costs do not include the Fund's transactional and operational costs some of which are recovered via the buy/sell spreads. For more information refer to 'Transactional and operational costs' in Section 3 of the Additional Information Document.
- These fees may be negotiated for investors who qualify as a "wholesale client" (as defined in the Corporations Act 2001). Refer to 'Wholesale client's' in Section 3 of the Additional Information Document.
- Management fee and recoverable expenses are expressed as a percentage of the net asset value.
- See 'Indirect costs' in Section 3 of the Additional Information Document for more information on the Fund's indirect costs.

**Warning:** Other service fees, such as an advice fee, may apply if you have a financial adviser. Refer to 'Payments to your financial adviser' section for more information.

### Example of annual fees and costs

This table gives an example of how the fees and costs in the Fund can affect your investment over a 1-year period. You should use this table to compare this product with other managed investment products.

EXAMPLE – Altius Bond Fund		BALANCE OF \$50,000 WITH CONTRIBUTION OF \$5,000 DURING THE YEAR
Contribution Fees	Nil	For every \$5,000 you put in, you will be charged \$0.
<b>PLUS</b> Management Costs	0.58% p.a. <sup>1</sup>	<b>And</b> , for every \$50,000 you have in the Fund you will be charged \$290.00 each year.
<b>EQUALS</b> Cost of Fund		If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees of:  <b>\$290.00</b> <sup>2,3</sup>  <b>What it costs you will depend on the investment option you choose and the fees you negotiate.</b>

- This is the Indirect Cost Ratio (ICR) based on the Fund's net assets for the period 1 July 2019 to 30 June 2020.
- This example assumes that the contribution of \$5,000 is made at the end of the year, and therefore no management costs for the contribution have been included.
- A buy/sell spread may apply to investments in and out of the Fund (see 'Buy and sell spreads and estimated transactional and operational costs' in Section 3 of the Additional Information Document).

ASIC provides a fees calculator on its 'moneysmart' website that you could use to calculate the effects of fees and costs on account balances.

### Additional explanation of fees and costs

#### Fee changes

Fees may increase or decrease for many reasons, including changes in the competitive, industry and regulatory environments or simply from changes in costs. We can change fees, without your consent, but will provide at least 30 days written notice of any increase.

#### Goods and Services Tax

Fees and charges set out in this PDS, unless otherwise stated, are inclusive of goods and service tax ('GST') less input tax credits (including approximate reduced input tax credits) that the Fund may be entitled to claim.

## Payments to financial advisers and intermediaries

The Corporations Act 2001 contains provisions which regulate, and in some cases prohibit, payment to financial advisers and intermediaries by product issuers. Any arrangement by us to make payments or provide incentives to financial advisers and intermediaries will be entered into in compliance with the legislation.

## Payments to your financial adviser

You can choose to make payments to your financial adviser through an 'advice fee' from your account.

This payment reflects your arrangement with your financial adviser as set out in the Statement of Advice provided by your financial adviser and is calculated and deducted (by way of a withdrawal of units, which may have taxation consequences) on a monthly basis. The advice fee is not a fee paid to us. You must notify us if you change or cancel your arrangement with your financial adviser.

If your average monthly account balance is \$10,000 and you nominate an ongoing advice fee of 1.10% p.a. this equates to approximately \$9.17 per month. The dollar amount will vary depending upon the average value of your account each month.

You should read important information about fees and costs before making a decision. Go to the 'Additional information about fees and costs' in Section 3 of the Additional Information Document. The material relating to fees and costs may change between the date when you read this PDS and the day when you acquire the product.

## 7. How managed investment schemes are taxed

### Australian Taxation

Investing in a registered managed investment scheme is likely to have tax consequences. Taxation law is complex and its application is dependent on your individual circumstances. We recommend that you seek independent professional tax advice about how it applies in your specific circumstances.

The Fund elected to be an Attribution Managed Investment Trust (AMIT) for tax purposes from the 2018 income year. The Fund itself should not pay tax on the basis that it will attribute trust components to investors each financial year on a fair and reasonable basis. You will need to include in your income tax return your share of the Fund's taxable income and capital gains for each financial year.

You should read important information about taxation before making a decision. Go to the 'Additional information about taxation' in Section 4 of the Additional Information Document. The material relating to taxation may change between the date when you read this PDS and the day when you acquire the product.

## 8. How to apply

1. Read this Product Disclosure Statement and the Additional Information Document.
2. Complete the electronic Application Form online. If you prefer to fill in a paper based form, you can complete the Application Form together with your payment instructions by downloading the Application Form.
3. Submit the Application Form by one of the following methods:
  - Online: Pressing the 'Submit' button
  - Email: Sending your scanned Application Form and attachments to [australianunitywealth\\_transactions@unitregistry.com.au](mailto:australianunitywealth_transactions@unitregistry.com.au)
  - Post: Sending your completed Application Form and attachments to:  
Australian Unity Wealth & Capital Markets  
GPO Box 804  
Melbourne VIC 3001

The application will be considered lodged when it is received in our Melbourne office on a Melbourne business day, prior to 3.00pm.

The Application Form for the Fund can be found on our website at [australianunity.com.au/wealth/abf](http://australianunity.com.au/wealth/abf)

### Handling of applications

No interest will be paid on application amounts for the period from receipt until the issue of units occurs. Similarly, no interest will be paid to any investor whose application (or part of an application) is returned by us unfilled. Any interest earned on the application amount during this period will be retained by the Fund and form part of its income for the benefit of investors. We may, in our absolute discretion, reject in whole or in part any application. We need not give any reason for the rejection.

### Changing your mind

Generally, you have a 14-day cooling off period to decide if this investment is right for you. The 14-day period starts on the earlier of:

- the date you receive your initial investment transaction statement; or
- five business days after your units are issued.

Therefore if you wish to cancel your investment, it is important that you write to us before the expiration of this period.

The amount repaid to you is adjusted to reflect any increase/decrease in the value of the investment due to market movement. We will also deduct any taxes or duties payable and transaction costs. As a result, the amount returned to you may be less than your original investment.

If you are an investor who qualifies as a "wholesale client" as defined in the Corporations Act 2001, the cooling off period is not available to you.

### Dispute Resolution

We take complaints seriously and aim to resolve them as quickly as possible. If you would like to make a complaint you can call us on +61 3 9616 8687 or 1300 997 774, email us at [australianunitywealth@unitregistry.com.au](mailto:australianunitywealth@unitregistry.com.au) or write to us at the following address:

Australian Unity Wealth & Capital Markets  
GPO Box 804  
Melbourne VIC 3001

We will promptly acknowledge your complaint, investigate it and decide in a timely manner what action needs to be taken. We will notify you of our decision within 45 days after receipt of the complaint, together with any remedies that are available, or other avenues of appeal against the decision.

If you are not satisfied with our handling or resolution of your complaint then you may contact the external independent body that has been established to provide recourse for consumers, free of charge.

#### Australian Financial Complaints Authority

Website: [www.afca.org.au](http://www.afca.org.au)  
Email: [info@afca.org.au](mailto:info@afca.org.au)  
Telephone: 1800 931 678 (free call)  
Fax: (03) 9613 6399  
In writing to: Australian Financial Complaints Authority  
GPO Box 3  
Melbourne VIC 3001

### 9. Other information

#### Related party transactions

All transactions we enter into in relation to the Fund including those with related parties are on arm's length commercial terms.

Entities within the Australian Unity Group may provide registry, accounting, asset management and tax services to the Fund for fees charged at a commercial rate.

Policies and guidelines are in place to manage the risk of any actual or perceived conflict of interest as a result of a related party transaction. Related party transactions with Australian Unity Group entities are reviewed and approved by senior management with clearly identified governance policies and guidelines. Details of material related party transactions are reported yearly as part of the Fund's Annual Report. The Fund's Annual Reports are published on our website.
